---

Drought meets acid: three new genera in a dothidealean clade of extremotolerant fungi L. Selbmann, G.S. de Hoog, L. Zucconi, D. Isola, S. Ruisi, A.H.G. Gerrits van den Ende, C. Ruibal, F. De Leo, C. Urzì and S. Onofri ..	1
Redefinition of <i>Aureobasidium pullulans</i> and its varieties P. Zalar, Gostinčar, G.S. de Hoog, V. Uršič, M. Sudhadham and N. Gunde-Cimerman .....	21
The influence of ortho- and para diphenoloxidase substrates on pigment formation in black yeast-like fungi N.A. Yurlova, G.S. de Hoog and L.G. Fedorova .....	39
Expression of fatty-acid-modifying enzymes in the halotolerant black yeast <i>Aureobasidium pullulans</i> (de Bary) G. Arnaud under salt stress C. Gostinčar, M. Turk, T. Trbuha, T. Vaupotič, A. Plemenitaš and N. Gunde-Cimerman .....	51
HMG-CoA reductase is regulated by environmental salinity and its activity is essential for halotolerance in halophilic fungi T. Vaupotič, P. Veranic, U. Petrovič, N. Gunde-Cimerman and A. Plemenitaš .....	61
Adaptation of extremely halotolerant black yeast <i>Hortaea werneckii</i> to increased osmolarity: a molecular perspective at a glance A. Plemenitaš, T. Vaupotič, M. Lenassi, T. Kogej and N. Gunde-Cimerman .....	67
Tinea nigra by <i>Hortaea werneckii</i> , a report of 22 cases from Mexico A. Bonifaz, H. Badali, G.S. de Hoog, M. Cruz, J. Araiza, M.A. Cruz, L. Fierro and R.M. Ponce .....	77
Black fungi in lichens from seasonally arid habitats S. Harutyunyan, L. Muggia and M. Grube .....	83
Cellular responses of microcolonial rock fungi to long-term desiccation and subsequent rehydration A.A. Gorbushina, E.R. Kotlova and O.A. Sherstneva .....	91
Resistance of Antarctic black fungi and cryptoendolithic communities to simulated space and Martian conditions S. Onofri, D. Barreca, L. Selbmann, D. Isola, E. Rabbow, G. Horneck, J.P.P. de Vera, J. Hatton and L. Zucconi .....	99
A rock-inhabiting ancestor for mutualistic and pathogen-rich fungal lineages C. Gueidan, C. Ruibal Villaseñor, G.S. de Hoog, A.A. Gorbushina, W.A. Untereiner and F. Lutzoni .....	111
Evolution of <i>CDC42-1</i> , a putative virulence factor triggering meristematic growth in black yeasts S. Deng, A.H.G. Gerrits van den Ende, A. Ram, M. Arendhorst, H. Hu and G.S. de Hoog .....	121
<i>Coniosporium epidermidis</i> sp. nov., a new species from human skin D.M. Li, G.S. de Hoog, D.M. Lindhardt Saunte, A.H.G. Gerrits van den Ende and X.R. Chen .....	131
Environmental isolation of black yeast-like fungi involved in human infection V.A. Vicente, D. Attili-Angelis, M.R. Pie, F. Queiroz-Telles, L.M. Cruz, M.J. Najafzadeh, G.S. de Hoog J. Zhao and A. Pizzirani-Kleiner .....	137
The neurotropic black yeast <i>Exophiala dermatitidis</i> has a possible origin in the tropical rain forest M. Sudhadham, P. Sihanonth, S. Sivichai, R. Chaiwat, S.B.J. Menken, G.M. Dorrestein and G.S. de Hoog .....	145
Selective factors involved in oil flotation isolation of black yeasts from the environment M.M. Satow, D. Attili-Angelis, G.S. de Hoog, D.F. Angelis and V.A. Vicente .....	157
Characterisation of the substrate specificity of the nitrile hydrolyzing system of the acidotolerant black yeast <i>Exophiala oligosperma</i> R1 S. Rustler, A. Chmura, R.A. Sheldon and A. Stolz .....	165
Biodiversity of the genus <i>Cladophialophora</i> H. Badali, C. Gueidan, M.J. Najafzadeh, A. Bonifaz, A.H.G. Gerrits van den Ende and G.S. de Hoog .....	175
